CASTLE & COOPER
Canadian Healthcare Supply

2018 Product Catalogue

YOUR TRUSTED CANADIAN SUPPLIER FOR CRITICAL AND LONG-TERM CARE;

Fall Prevention, Nurse Call Components & Medical Equipment.

QUALITY
Products that you can rely on from proven manufacturers that stand behind their promises.

VALUE
Supplying cost-effective solutions for consumers and facilities across Canada.

CUSTOMER SERVICE
Knowledgeable and reliable service every step of the way.

PARTNERSHIPS
Strong international partnerships to ensure the best quality and value.

WHY CASTLE & COOPER?

Castle & Cooper is celebrating 37 years of supplying the healthcare industry with reliable, cost-effective parts and equipment.

- Fall prevention and anti-wandering devices
- Nurse call cords and components
- Casters and wheels for beds, stretchers and carts
- Wheelchair and patient lift parts
- Bed and stretcher mattresses and parts

We invite you to review our newly published catalogue and contact us by phone or email for professional customer service and knowledgeable advice. Or visit our new user-friendly website designed to simplify the search and ordering process, and receive a 10% discount on your first order with code "**castle10**".

Castle & Cooper has established new partnerships, both nationally and internationally, to strengthen our ability to supply quality parts and equipment at a great value. We are your one-stop source that saves you money by offering durable and affordable alternatives to the parts and equipment supplied by OEMs.

Thank you for your business.

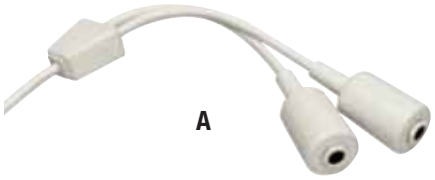
ADAPTERS

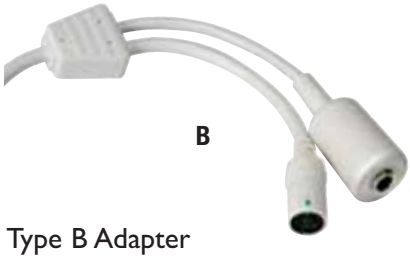
LATEX-FREE

Expand the use of your nurse call system. A convenient and low cost solution, these adapters allow two separate nurse call devices – such as a bed exit device and call cord – to be plugged into a single wall receptacle.



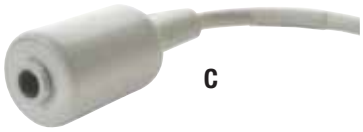
Type A Adapter

The Type A adapter converts your existing receptacle into two 1/4" phone plug receptacles.



Type B Adapter

The Type B adapter converts your existing receptacle into one female receptacle of the same style and one 1/4" phone plug receptacle.



Type C Adapter

The Type C adapter converts your existing receptacle into one 1/4" phone plug receptacle.

SELECT YOUR STYLE OF CONNECTOR FOR ANY OF THESE ADAPTERS

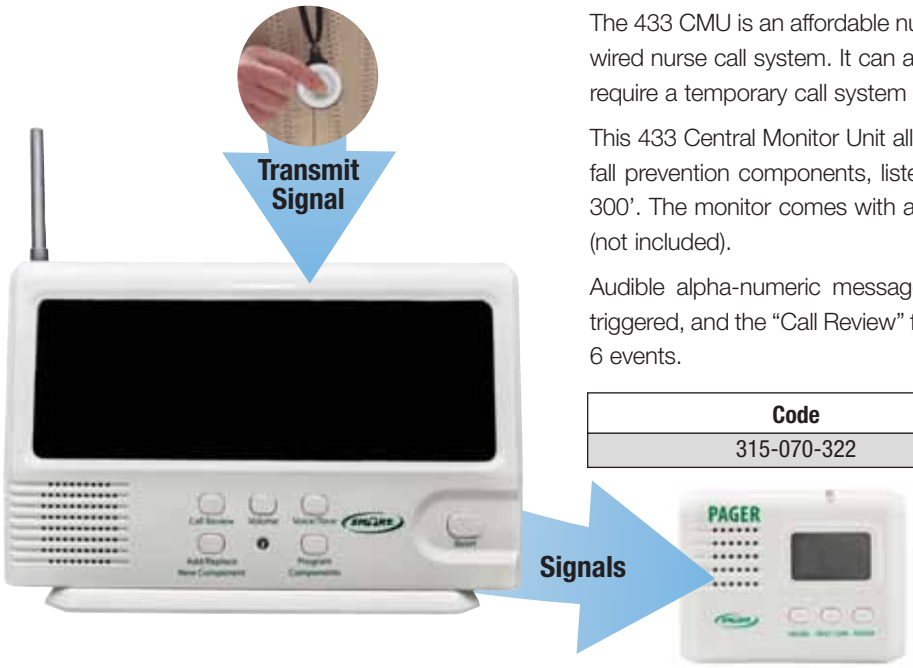
We can supply call cord connectors for other systems. Please contact us for details.

433 CENTRAL MONITORING UNIT



The 433 CMU is an affordable nurse call option for facilities that do not have a hard-wired nurse call system. It can also serve as an excellent alternative in facilities that require a temporary call system in patient overflow areas.

This 433 Central Monitor Unit allows you to program up to 40 nurse call buttons or fall prevention components, listed on pages 33-34. It has a signal range of up to 300'. The monitor comes with an AC adapter, or it can be used with 4 C batteries (not included).

Audible alpha-numeric messages let you know which sensor device has been triggered, and the "Call Review" feature allows the caregiver to scroll through the last 6 events.

Code	Each
315-070-322	$162.95

FA-PN/CE-MO

433 WIRELESS NURSE CALL BUTTON

This wireless call button will transmit a signal up to 300' to the 433 Central Monitoring Unit. Each button comes standard with a breakaway lanyard that can be worn around the patient's neck, or plastic wall/headboard mounting cradle. Requires one 12-Volt/A23 battery (included).

Code	Each
315-070-326	$29.95

433 PAGER WITH RESET

This top of the line pager has the ability to notify by tone, vibrate, or audible alpha-numeric message which component has activated the alarm, and allow the caregiver to silence the 433 Central Monitoring Unit remotely. It is also equipped with an adjustable volume switch and comes with a black pager case. Requires 2 AA batteries (not included).

Code	Each
315-070-347	$115.95

NURSE CALL BUTTON PAGING SYSTEM

If simplicity is what you want, you'll get it here with this 2 Button Paging System – just insert the batteries and you're ready to go. System comes with two nurse call buttons and one Pager. Each button can be attached to a headboard or worn around the neck and, when activated, will send a signal to the Pager.

Please note that Nurse Call buttons included in this package are not compatible with the 433 Central Monitoring System.

Code	Each
315-070-327	$82.95

SANIPULL® ANTI-LIGATURE RIBBON PULL (READY-TO-USE)

Pre-cut Sanipull® cleanable, anti-ligature ribbon pull is assembled with a SuperSanipull® clamshell adapter and your choice of linen clip, open or closed handle. This anti-ligature modified ribbon helps mitigate the risk of entanglement or strangulation with a proprietary safety breakaway, designed to tear apart at 29 +/- 2 lbs (13 +/- 1 kg) force at 74 °F (23 °C) . This ½" wide ribbon is factory modified with nominal 5/16" diameter holes punched every 6-8 inches along its length. **Sold in sets of 10 pulls.**

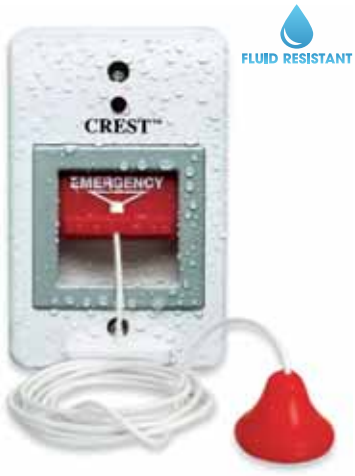
UNIVERSAL PULLCORD STATIONS

These 2-pole pullcord stations are ruggedly constructed of fire-retardant ABS and have a clean, modern design. For “wet” locations such as bathrooms or a shower, choose the waterproof station.

Both models are available with the traditional string or the nylon pullcord and pendant.

A

B



Pic Ref	Code	Description	Each
A	228-003-116	Pullcord Station with String	$74.50
	228-003-117	Pullcord Station with Nylon String and Pendant	82.90
B	228-003-118	Waterproof Pullcord Station with String Cord	99.35
	228-003-119	Waterproof Pullcord Station with Nylon String and Pendant	105.98

Both are shown with the nylon string and pendant.

1/4” PHONE JACK RECEPTACLE STATION

This unique 2 conductor 1/4” phone jack receptacle automatically places a call if the cord becomes disconnected. Ideal with locking call cords.

Code	Each
228-003-120	$57.50

3-POSITION PULLCORD STATION

This pullcord station includes maintained, momentary and normally-closed contacts. The lever-action switch features a momentary buzzer spring which returns to a centre position. Additional pulls momentarily reactivate the buzzer. For use in bathroom areas where emergency stations are needed.

FOR HILL-ROM® BEDS

The following cables are completely compatible with Hill-Rom® beds and features superior cable technology for optimum data transmission. Rubberized cable is durable, yet flexible enough for tight areas; high quality material ensures that the cable will maintain its flexibility over time. Extra long slotted thumb screws provide easy installation of the bed end connector. Available in molded in-line or 90˚ plug ends.

QUANTITY DISCOUNTS

Code	Description	Each 1-9	Each 10+
227-005-001	In-line Bed Cable	$74.50	$68.95
227-005-002	90°Bed Cable	74.50	68.95

Our best cable includes a breakaway connector within 12" of the bed end of the cable. This prevents dragging of the cable thereby reducing potential hazards. Length is 8'.

CABLESAVER™ BED CABLES

The CableSaver™ Bed Cable System is designed to outlast the OEM's 37 pin cables by 20 to 1! The foolproof design ensures that the cable is plugged in correctly every time, moreover it can be pulled from any direction without damage.

The cross compatibility design of the adapter permits the CableSaver™ cables to be phased in over time.

Cables are 8' in length.

SMART CAREGIVER™ CORDLESS FALL PREVENTION MONITOR

The CordLess® Monitor is a Smart Caregiver™ product that enables the caregiver to place the fall monitor 15-30 feet from the resident - and the resident's roommates - thus ensuring a quieter environment.

No cord between sensor pads and the fall monitor eliminates tripping and entanglement hazards.

The CordLess® Monitor can be used with 1 or 2 pads and is covered by a 1 year warranty. CordLess® bed and chair sensor pads, and infrared motion sensor are available separately.

SMART CAREGIVER™ CHANGE PAD INDICATOR™ MONITOR

The Change Pad Indicator™ monitor features "always on technology" which means there is no "off" switch to discourage patient tampering. Volume control, 3-tone choices and programmable 0, 1, or 2-second delay switches are located under the screw-secured battery cover to prevent tampering.

This monitor is compatible with timed weight-sensing bed and chair pads, floor pads or a seatbelt sensor. Alarm notifications are both audible and visual.

An optional nurse call cable permits use to an existing hardwired nurse call system. Warranty is one year. Operates on 3 AA batteries or an optional AC-05 adapter.

SMART CAREGIVER™ ECONOMY FALL PREVENTION MONITOR

Built with the same durable construction as the Change Pad Indicator™ monitor, this unit operates via a simple on/off switch thus keeping cost to a minimum. It features a low battery indicator and a pad loss warning system. A soft vinyl boot protects the monitor from everyday use. Warranty is one year. Powered by 3 AA batteries.

The Economy monitor can also be used with an existing nurse call system with the use of the nurse call cable.

SMART CAREGIVER™ ECONOMY CORDLESS® FALL ALARM

The Economy CordLess® Fall Alarm is capable of monitoring up to six (6) wireless components from one location, and is ideal for home or facility use. This portable monitor is designed to alert caregivers when an at-risk individual attempts to leave their bed without assistance. By placing the monitor up to 300 feet from the resident, startling alarm noise can be removed from the room, creating a quiet and secure environment for the resident. It is ideal for home or facility use. Batteries (3 C) not included. Optional AC Power Adapter (AC-04).

RECORDABLE VOICE PULL STRING MONITOR

Two great monitors, the dual magnet/sensor pad monitor and "Voice Recordable" monitor have now been combined into one unit.

Features of this versatile monitor permit it to be moved easily from a wheelchair to a bed. The "Voice Recordable" option allows you to record the soothing voice of a caregiver/family member - or music - reminding the patient that help is on its' way.

This monitor has adjustable volume control for the alarm and will work with most existing nurse call systems. Please note that this monitor will not work simultaneously in the pull string and sensor pad modes. See page 31 for Monitor Pads.

Warranty is one year. Operates on 3 AA batteries.

Code	Description	Each
315-070-340	Recordable Voice Pull String/Pad Monitor	$105.95
315-070-056	Replacement Pull String for Dual Monitor	15.95
315-070-052	Nurse Call Cable	24.95

LIFETIME WARRANTY* PULL-STRING MONITOR

The manufacturer of this monitor is so confident of its durability that every unit comes with this guarantee: If it breaks, they will replace it! Alarm is triggered when magnet disengages from the monitor due to resident activity. Unit includes a low-battery warning. 9V batteries included.

Code	Description	Each
315-070-030	Lifetime Warranty* Pull-String Monitor	$82.95
315-070-053	Replacement Pull String	15.95

FA-PR/PULL

**Warranty against monitor defects. Must be used with the protective cover. Warranty does not cover straps.*

BASIC PULL-STRING MONITOR

This low cost pull-string monitor provides an audible alarm when the magnetic seal is broken. An integrated mounting clip conveniently attaches the monitor to the handle or back of a wheelchair.

Warranty is 6 months. Operates on a 9V battery (not included).

Code	Description	Each	Each (3+)
315-070-035	Basic Pull String Monitor	$35.95	$33.95

INFRARED MOTION SENSOR

This motion sensor alarm is activated when the infrared field is interrupted by the resident's movement. A swivel bracket permits mounting anywhere. An optional extendable bracket may be purchased so that the infrared field avoids nearby obstacles. 9V battery included.

Code	Description	Each
315-070-032	Infrared Motion Sensor	$52.95
315-070-033	Extendable Mounting Bracket	28.95

FA-PR/INFR

EMERGENCY CALL LIGHT SYSTEM

This waterproof Emergency Call Light System is pre-programmed and ready to use!

This call light is ideal for bathrooms or hallways where a regular call bell cannot be used. Each system includes an Emergency call button with pull cord, a reset button, and a call alarm light. Components do not require hard wiring and can be easily mounted on most surfaces using the self-adhesive on the back of each item. Warranty is 1 year. 4 D batteries not included.

Code	Description	Warranty	Each
315-070-341	Emergency Call Light System. Includes 1 Nurse Call Button with Pull-Cord, 1 Reset Button, and 1 Call Alarm with Light	1 Year	$482.95
315-070-342	Wireless Nurse Call Button with Pull-Cord for Emergency Call Light System	1 Year	135.95

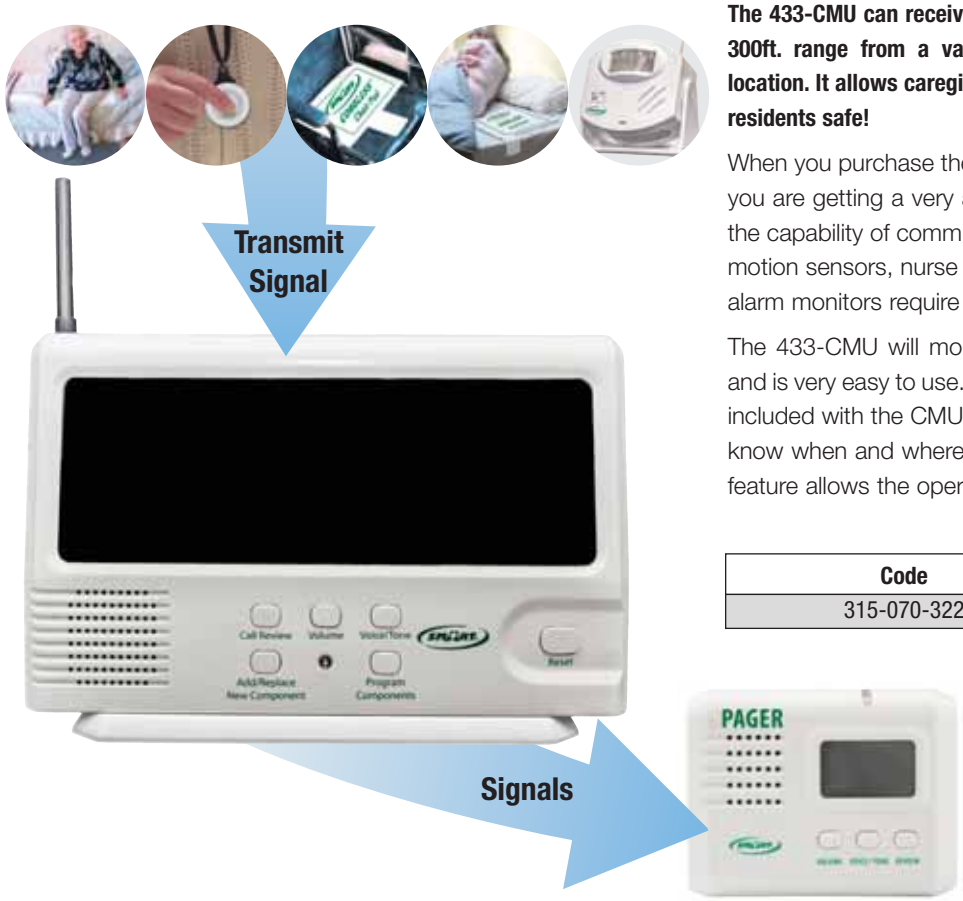
433 CENTRAL MONITORING UNIT



The 433-CMU can receive unique and identifiable wireless signals up to a 300ft. range from a variety of sensor devices, located in one central location. It allows caregivers to remove alarm noise from rooms, and keep residents safe!

When you purchase the popular 433 Central Wireless Monitoring Unit you are getting a very affordable, yet versatile, system that gives you the capability of communicating with Smart Cordless Sensor devices, motion sensors, nurse call buttons, exit systems and pagers. Corded alarm monitors require a wireless adapter (next page).

The 433-CMU will monitor up to 40 Smart wireless sensor devices and is very easy to use. It operates off batteries, or an AC adapter now included with the CMU. Audible and alpha-numeric messages let you know when and where a sensor device was triggered. A Call Review feature allows the operator to scroll through the last 6 events.

Code	Each
315-070-322	$162.95

FA-PN/CE-MO

433 PAGER WITH RESET

This top of the line local pager has the ability to notify by tone, vibrate, or audible alpha-numeric message which component has activated the alarm, and allows the caregiver to silence the 433 Central Monitoring Unit remotely. It is also equipped with an adjustable volume switch and comes with a black pager case. Requires 2 AA batteries (not included).

Code	Each
315-070-347	$115.95

If you are using the 433 Central Monitoring Unit you can have the CMU forward an alarm to the new 433 LCD Pager which can be worn by a caregiver. An audible voice or vibration, and an LCD on the 433 pager identifies the alarming station.

Code	Each
315-070-324	$77.95

433 WIRELSS NURSE CALL BUTTON

This wireless call button will transmit a signal up to 300' from the 433 Central Monitoring Unit. Each button comes standard with a breakaway lanyard that can be worn around the patient's neck, or a plastic wall/headboard mounting cradle. Requires one 12-Volt/A23 battery (included).

Code	Each
315-070-326	$29.95

FA-PR/CL-BN

433 WIRELESS MOTION SENSOR

This Wireless Motion sensor is designed to work with the 433 Central Monitoring Unit and can be set up next to a doorway to allow caregivers to monitor exits without having to use a sensored floor mat. When the beam is broken, a signal is sent to the central monitor.

Code	Each
315-070-331	$49.95

WIRELESS ADAPTER

Wireless adapter shown plugged into Fall Monitor

For converting corded monitors to wireless operation.

For those using our Economy and Change Pad monitors and our Dual Magnetic/Sensor Pad and Call monitors, you can now make these units communicate wirelessly with the 433 Central Monitoring Unit by simply plugging the adapter directly into the side of the monitor and then programming it to the 433 Central Monitoring Unit.

FA-PR/ GHOS

NEW LOWER PRICING

The Smart Anti - Wandering door alert will alarm audibly and visually when a resident wearing a wristband comes within 10 to 14 feet of the doorway. A key fob worn by the caregiver or remote wall mount reset button will silence and reset the alarm. The waterproof resident wristband is covered by a six month warranty.

The system is simple to install with just six components - a door strip monitor bar with A/C adapter, a Caregiver reset key fob, the resident wristband and a magnetic contact switch. Activation is as simple as plugging the monitor bar into an A/C outlet. Use of the magnetic contact switch is optional and restricts the alarm from being activated until the door is opened and a resident with a wristband transmitter is within 10-14 feet of the doorway.

The double door system uses the same components as the single system but has a second door monitor bar and a second magnetic contact switch.

These systems have the ability to send a signal to a Large Facility Central Monitor.

SINGLE DOOR SYSTEM

$957.95
CODE: 315-070-301

DOUBLE DOOR SYSTEM

$1320.95
CODE: 315-070-302

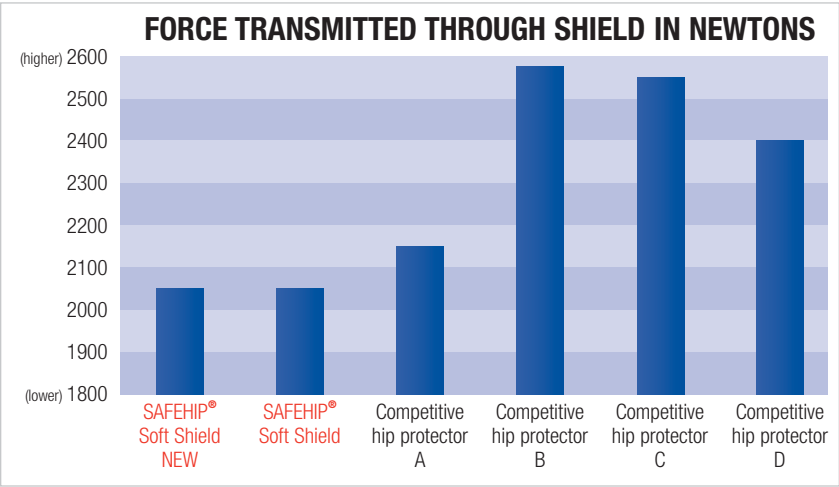
315-070-316	A/C Adapter for Wireless Wall Mount Reset Button	$27.95

TYTEX: RATED #1 BY THE SIMON FRASER UNIVERSITY IN BURNABY B.C.

Developed in partnership with leading doctors, professors and universities, SAFEHIP®'s performance was rated the best among leading brands in 2008 by the Simon Fraser University in Burnaby, BC.

According to Stephen Robinovitch, Ph. D., Canada Research Chair, School of Kinesiology at the Simon Fraser University: *"We have found that the SAFEHIP® Soft protector provides considerably better protection that a competing product under a variety of falling conditions. SAFEHIP® Soft provides especially improved performance in falls of moderate severity, and for women who have little natural padding".*



Results from testing conducted in 2008 at Simon Fraser University, Canada, by professor Stephen Robinovitch.

WHY TYTEX HIP PROTECTORS ARE TOP RATED

SAFEHIP® new horseshoe shaped, soft shield technology is based on two key principles: impact energy dispersion and impact energy absorption. In the event of a fall on the hip, SAFEHIP® disperses the energy of the impact away from the greater trochanter (hip bone) directing it to the soft tissue and the muscles around the femoral neck thereby reducing the risk of a hip fracture.

The Spacer fabric used in the new SAFEHIP® allows for 100% air flow thus providing complete air penetration along the hip region. Documented test results by a Swiss research institute show that moisture and heat are reduced by allowing air to penetrate directly to the skin.

SAFEHIP®, one of the most clinically tested hip protectors in the world, has been tested on more than 6,000 people in a long series of clinical trials in Scandinavia, Germany, Holland, Japan and Australia.

SAFEHIP®

The horseshoe design of SAFEHIP® Soft enables the remaining force of impact to be diverted away from the hip bone towards the softer tissue where it can be safely absorbed.

COMPETITIVE BRANDS

The remaining force of impact from standard shaped hip protectors is led directly to the bone and surrounding tissue when material is compressed.

SAFEHIP® CLASSIC

$114.25 (1-4 UNITS)
$107.50 (5 OR MORE)

For use in hospital, nursing home and home the Classic SAFEHIP® shield offers ultimate comfort and safety while the sewn in shield provides excellent fracture reduction. Discreet and comfortable to wear, the Classic can be used over underwear; washed with normal clothing and dried at the highest heat cycles.

Now available in Unisex, Open and Male.

SAFEHIP® ACTIVE

The only 100% breathable hip protector available today, the design of the SAFEHIP® Active permits air to penetrate and reduce the amount of moisture and heat buildup around the hip region. Four-way stretch enables the Active to conform to the body's natural curves while the acclaimed horseshoe protective shield design fully meets fracture reduction requirements.

The Active is ideal for use in skilled nursing facilities, assisted living, rehabilitation and training centers.

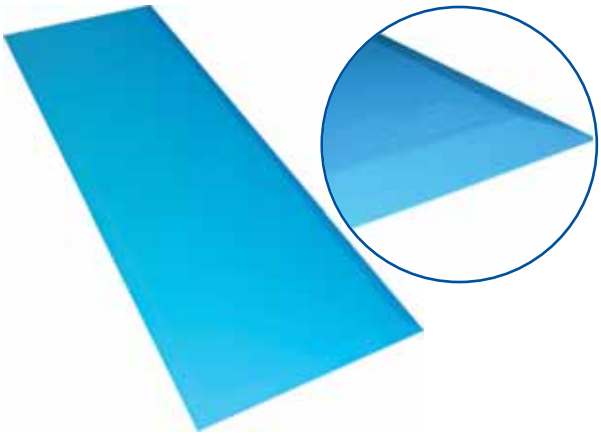
SAFE & SOUND FOLDING FALL MAT



Cushion impact and help reduce injuries from fall with this multipurpose impact reduction floor mat. Placed next to a bed or chair of at-risk patients to, the mat is engineered with a thin, floor hugging perimeter with a gradual incline and anti-slide bottom. Mat folds once in the centre for easy storage.

Code	Size	Description	Warranty	Each
315-106-001	24 x 70"	Safe & Sound Folding Fall Mat, Blue	18 months	$235.95

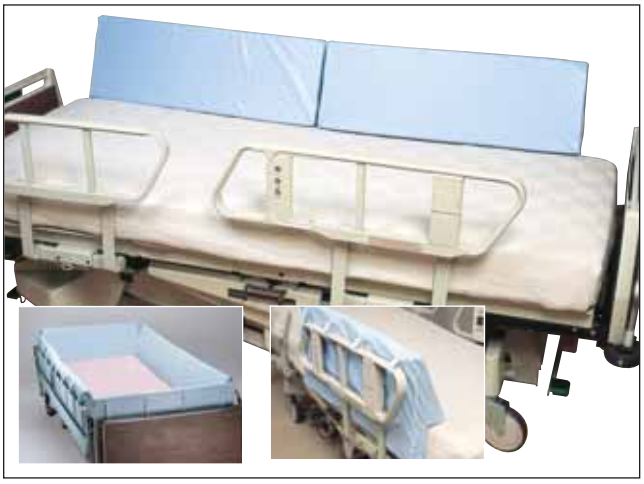
MATTRESS GAP FILLER

Fitting these gap fillers around the perimeter of the mattress will help reduce potential injury, including head or limb entanglement. Zippers allow multiple gap fillers to be connected. Vinyl cover is anti-microbial and meets CA117 flame retardant standards. Dimensions are 35 L x 6 H x 2" D.

Code	Description	Each
175-048-005	Gap Filler, 1 Pair/Package	$86.95

SA-MA/GA-FR

SIDE RAIL WEDGES



These versatile side rail wedges help deter bed exit and side rail entrapment and can be used four different ways. Dimensions are 35 L x 17" H.

- May be used singly to cover or close the gap between half side rails.
- Zipping together the two halves will provide 70" full length protection.
- Can also be used at the head and foot end.
- When placed on top of the mattress, the wedge helps position patients at a subtle side angle to help reduce pressure on the back and increase patient comfort.

Code	Description	Each
175-048-006	Side Rail Wedges, 1 Pair/Package	$344.25

SA-MA/WEDG

SOFT RAIL BOLSTERS

A safe alternative to side rails, this product will help prevent patients at risk for rolling out of bed while allowing sufficient space for patient comfort. Bolsters may be repositioned to accommodate the individual's need, or removed completely for patient transfer. The Soft Rails attach quickly to the bed with quick release buckles and may be used with side rails raised or lowered. Bolster dimensions are 33 L x 8 W x 8" H; maximum sleep surface width between bolsters is 17".

These Soft Rails are available in a machine washable fleece or vinyl cover.

Code	Description	Each
175-048-007	Soft Rails, Double Bolster, Fleece	$290.50
175-048-008	Soft Rails, Double Bolster, Vinyl	290.50

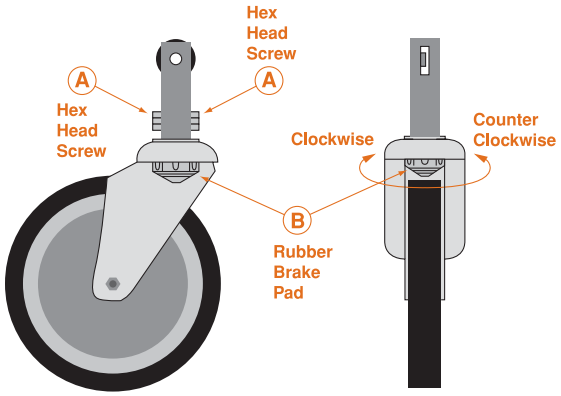
CASTERS BY MANUFACTURER
PAGES 67-68

Because the mechanics of central locking casters are difficult – if not impossible – to see in action, and thus the logic of their action, adjusting a complete system so that all casters work in unison can be frustrating in the extreme. And what's worse is that both swivel/directional lock and total lock casters look exactly alike.

Most stretchers have just one steer caster which is usually located under the patient's right foot.

BRAKE ADJUSTMENT WITH RUBBER BRAKE SHOE



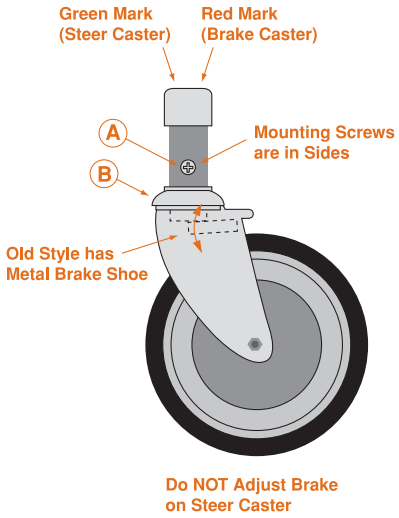
Do NOT remove the mounting screw (A) to adjust the brake.

To Tighten Brake:
Turn brake shoe (B) clockwise.

To Loosen Brake:
Turn brake shoe (B) counterclockwise.

NOTE: The brake on the steer caster can also be adjusted on this style caster.

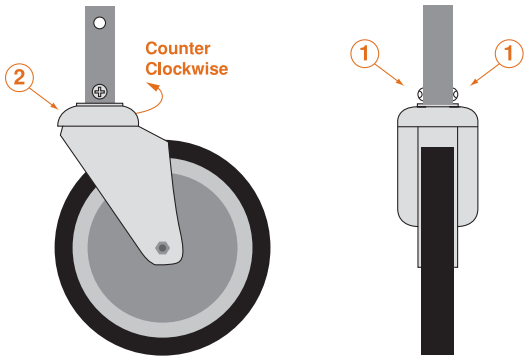
BRAKE ADJUSTMENT WITH METAL BRAKE SHOE



If the brake is not holding correctly, adjust as follows to increase braking power:

1 Set the brake (pedal in neutral position).
2 Lift end of stretcher just high enough so that the caster you are adjusting does not touch the floor.
3 Remove the phillips head screw (Item A).
4 Turn the ring (Item B) 180 degrees or 1/2 turn clockwise (the whole caster may or may not turn).
5 Check the wheel for holding power.
6 Repeat step 4 if the wheel does not hold.
7 When the wheel holds satisfactorily, install the phillips head screw (Item A). Apply loctite to the screw threads.

STEER CASTER ADJUSTMENTS



If steer caster is not locking in every time or only locking in one direction:

1 Lift the caster off the floor approximately 1".
2 Put the brake & steer lock pedal in neutral position.
3 Remove the two phillips head screws (Item 1).
4 Turn the bearing housing (Item 2) 1/2 turn counterclockwise. Install one of the phillips screws and test the steer caster.
5 If the steer still does not lock in correctly remove the screw and turn counterclockwise another 1/2 turn. Install the screw and test.

BED CASTERS 101

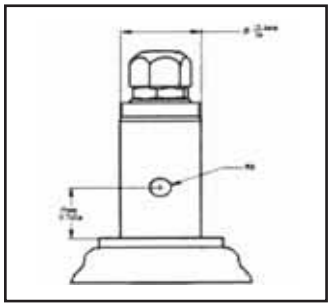
Obtaining the correct caster can be a bewildering challenge - not least of which is the fact that replacement casters or their specs often become obsolete by the bed manufacturer.

From our years of experience however, we've compiled the following pages in a manner that will make your job of getting the correct caster easier.

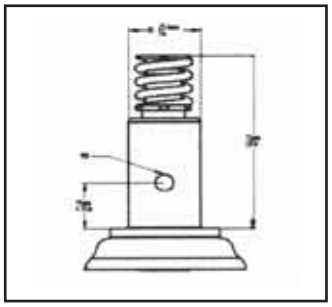
WHEN ORDERING YOU NEED TO KNOW:

1. STEM TYPE

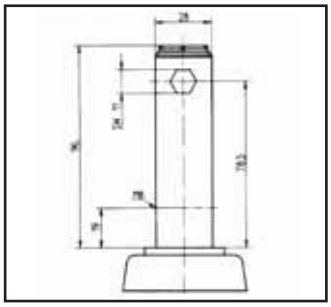
TOP HEX - see page 46



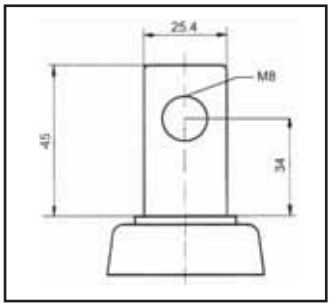
SPRING TOP - see page 46



SIDE HEX - see page 47



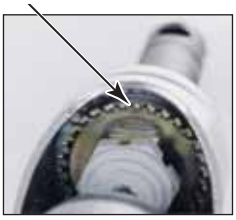
SWIVEL - see page 47



2. TOTAL LOCK OR TOTAL LOCK/DIRECTIONAL LOCK

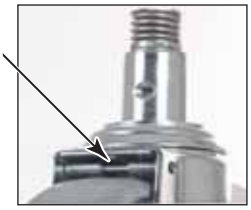
Even Sherlock Holmes would have been challenged to determine the differences between Total lock and Total lock/Directional lock casters. The difference between the two is this: Total lock, locks both the wheel rotation and the swivel action simultaneously while Total/Directional locks the swivel action in the first pedal position and the wheel rotation and the swivel motion in the second position pedal.

Here are some tips on how you can tell the two styles apart.



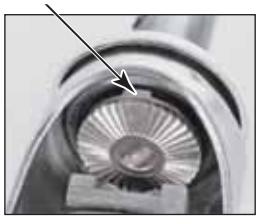
TOP HEX

Looking at the bottom side of the stem bearing (just above the wheel), notice the notched washer. This designates Total lock/Directional lock action.



SPRING TOP

An extra plate riveted to the under side of the caster fork (just above the wheel), designates a Total directional lock caster.



SIDE HEX

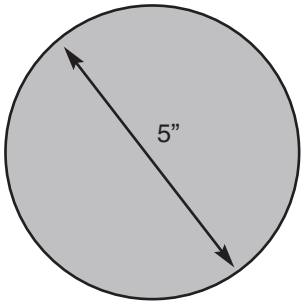
Looking at the bottom side of the stem bearing (just above the wheel), notice the two notches in the detent plate. This designates Total lock/Directional lock action.

3. WHEEL TYPE

Most central locking systems use a rubber or polyurethane wheel material with either plastic or chrome thread guards. Keep in mind that rubber provides a more comfortable ride for the patient while polyurethane wheels provide lower rolling resistance, thus allowing the equipment to be maneuvered with less effort.

Note: To meet their caster locking requirements, Hill-Rom® does not recommend the use of polyurethane wheels.

4. WHEEL SIZE



Most Hill-Rom® beds use a 5” wheel.

Wheels are sold separately (shown on next page).

CA-WH/BD-CA

These high quality wheels are available in round and square grey rubber tread; all have standard or precision ball bearings.

Keep in mind that while rubber provides a more comfortable ride for the patient, polyurethane wheels offer lower rolling resistance, making a bed easier to maneuver. However, because polyurethane is harder than rubber, the braking action will not be as good. For this reason, Hill-Rom® does not recommend the use of polyurethane wheels on their beds.

A NOTE ABOUT SOME HILL-ROM® BEDS

With some older Hill-Rom® beds – such as the Genesis 350 birthing bed – caster stem lengths appear the same as those for their newer beds, but in fact are slightly shorter. These different dimensions are circled in orange in the illustrations to the left.

FOR I.V. POLES

OUR TOP SELLING CASTER!

WHY RISK DAMAGE TO EXPENSIVE MEDICAL EQUIPMENT BECAUSE OF POOR QUALITY PLASTIC CASTERS?

Equipment being damaged from I.V. poles tripping over uneven doorways and other surfaces? This top of the line, 2" neoprene wheel with its high degree of "bounce back" will roll smoothly over some of the most uneven surfaces. Axle is removable for cleaning, even the precision bearing is permanently greased. Grip ring stem is 7/16 x 7/8" long.

PREMIUM REPLACEMENT CASTERS FOR OFFICE CHAIRS

Give some new mobility to your crippled office chairs! Our best caster, and great for your weary legs. The neoprene wheel will provide a cushioned and silent ride with virtually no rolling resistance. Grip ring stem is 7/16 x 7/8" long. Wheel diameter is 2".

AS LOW AS $8.95 EA. (QTY 100+)

DIRECTIONAL LOCK/ TOTAL LOCK

Designed specifically for healthcare settings by America's leading caster manufacturer, the features of this top-quality caster make it an excellent choice for utility carts, case carts, food service carts and general and high-tech medical equipment.

- Dual ball swivel raceways for added strength.
- Wheels have full plastic thread guards for added protection.
- Wheels are crowned for easy rolling and turning.
- Available in swivel, total lock and directional lock configurations.

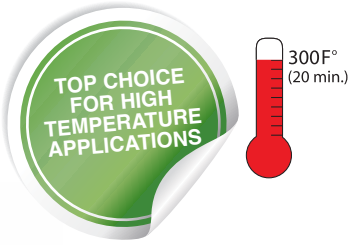
CASTERS & WHEELS | CARTWASHABLE™ CHROME CASTERS - CASE CARTS

SWIVEL

RIGID

FOUR-WAY LOCK



Hospital laundries and dietary departments concerned with sanitary operations will find these Darcor cart washable casters require less maintenance and provide extra life both to the caster and equipment. Years of actual experiments and hundreds of tests went into the design of these casters. All cart washable casters use a high temperature neoprene wheel that will withstand temperatures of up to 300ºF for 20 minutes or 175ºF for 1 hour. And they're quiet too - with a durometer hardness of Shore 62 "A" - especially on tile floors.

Swivel yoke and ball bearing raceway hardened to provide protection against shock and overloading.

Nickel chrome finish

Lower metal cup seals and protects bearings. Also provides reservoir for lubricant to act as protection against water or dust.

Rubber "O" ring seals the upper ball race

690-010-330PK

Fits 7/8" tube, all brands

$25.10

(For more see pg 91)

SEAT RAIL GUIDE 10/PK

690-010-383PK

5/8" dia., Grey flat handle

$14.85

(For more see pg 90)

ANTI-TIPPING LEVER RUBBER SLEEVES 10/PK

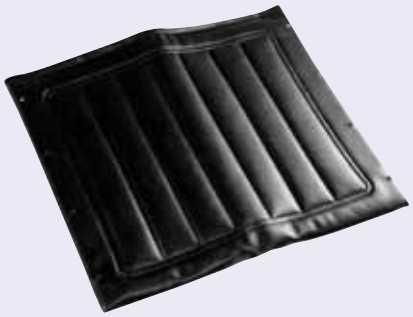
690-010-332PK

Fits 7/8" tube, Black

$8.80

(For more see pg 83)

STANDARD UPHOLSTERED SEAT



690-010-419-50	18 x 16"	Embossed	Dark Blue
690-010-419-58	18 x 16"	Embossed	Black

$45.60 each

(For more styles and colours see pg 88)

STANDARD UPHOLSTERED BACK

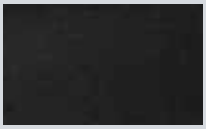
690-010-477-50	18 x 18"	Embossed	Dark Blue
690-010-477-58	18 x 18"	Embossed	Black

$45.60 each

(For more styles and colours see pg 88)

50 DARK BLUE INVACARE

58 BLACK



REAR TIRE TUBES

690-010-132

22 x 13/8", Fits most brands

Starting at

$7.60 each

(For more tubes see pg 73)

SOLID REAR PLASTIC MAG WHEELS

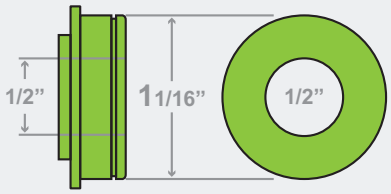
690-010-205

24 x 1"
Grey, economy
8-spoke poly tire chrome

$152.00 each

(For other styles see pg 78)

STEM BEARINGS

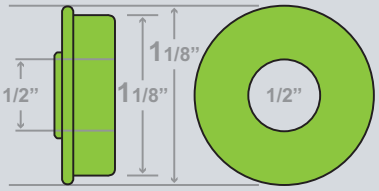


690-010-249PK

1/2” x 1 1/16”

Flanged, sealed one side;
Fits E&J and Theradyne fork stems

$15.68



690-010-251PK

1/2” x 1 1/8”

Flanged sealed; Fits Invacare, Tracer 1000, 2000, 4000, stainless Medical and Quadra

$8.28

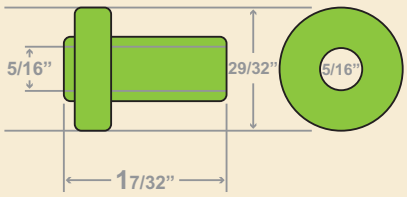
CASTER BEARINGS

690-010-260PK

5/16” x 29/32”

Sealed, external race;
Fits E&J casters and some Theradyne

$15.96

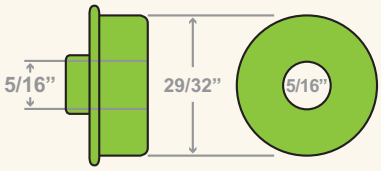


690-010-263PK

5/16” x 29/32”

Shielded, shoulder, external race; Fits E&J and stainless medical casters

$7.98

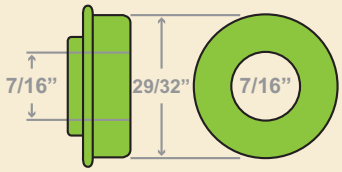


690-010-266PK

7/16” x 29/32”

Flanged, shielded external race; Fits Invacare and Theradyne casters

$15.96



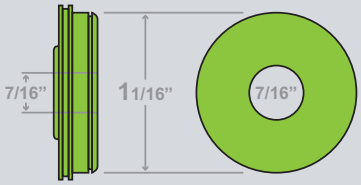
REAR WHEEL BEARINGS

690-010-268PK

7/16” x 1 1/4”

Flanged, sealed;
Fits E&J 24” spoke and mag wheels

$18.25

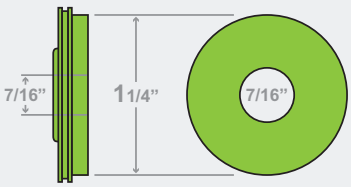


690-010-269PK

7/16” x 1 1/4”

Precision flanged;
Fits E&J 24” spoke and mag wheels

$47.90

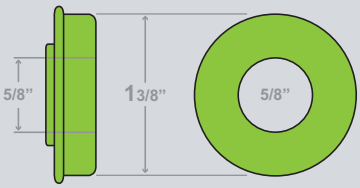


690-010-275PK

5/8” x 1 3/8”

Flanged; Fits Invacare, E1000, Theradyne and Tag wheels

$21.66



For more bearings see pages 77, 79

WH-CH/PC-CW

To be sure of getting the correct rear wheel, it's important to know the following when ordering:

1) Axle Diameter

Note: Most axles are 7/16", some are 1/2" and a few heavy-duty wheel chair models have 5/8" diameter axles. Most of our wheels are designed for 1/2" axles; for 7/16" axles, a reducer is provided with the wheel.

2) Approximate Bearin Separation Distance

Many wheel hubs have bearings mounted flush with the ends of the hub. However, some hubs have recessed bearings where the bearings are mounted inward about 1/2". See drawings shown to the right.

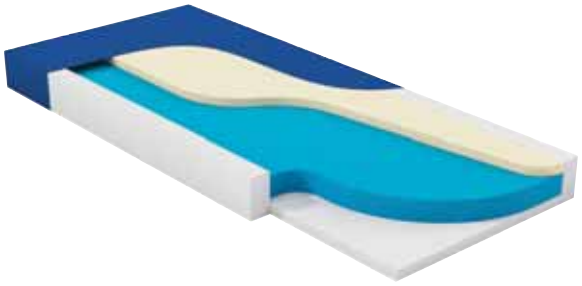
DELTAWAVE

WHY DELTAWAVE™?

Carefully engineered with providers and patients in mind, Deltawave™ mattresses by Castle & Cooper Inc., provide longevity, safety and comfort for years of continued use. Deltawave™ standard mattresses include many of the optional features of other brands, giving you more value and at less cost. Rest assured that your patients are comfortable and safe on any Deltawave™ mattress you choose.

DELTAWAVE™ STANDARD MATTRESS

The Standard DELTAWAVE™ Mattress delivers excellent value and comfort for **low risk** patients. Providing a quality multi-layered design, patients experience optimal pressure distribution and comfort.



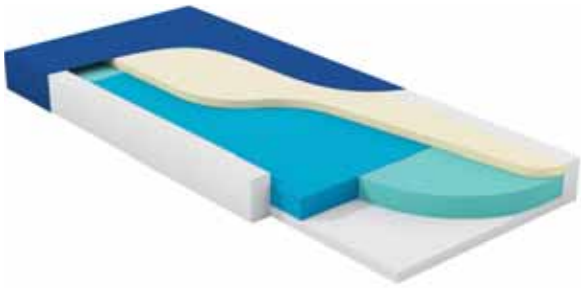
FEATURES

- Meets latest FR standards.
- Supportive reinforced perimeter foam
- **Triple-core design for optimal pressure distribution**
- Soft-Max topper for maximized comfort & reduced pressure points
- Head to foot reversibility helps extend mattress life
- DELTAWAVE™ 4-way stretch, anti-sheer fabric
- Fluid Proof, Antimicrobial & Antifungal cover
- 360-degree zipper for easy inspection and service
- Custom sizes available
- Made to order

Code	Size	Description	Warranty	Each
480-099-600	36 x 80 x 6”	DELTAWAVE™ Standard Mattress	5 years for foam & cover	$365.95

DELTAWAVE™ PREMIUM MATTRESS

The Premium DELTAWAVE™ Mattress offers outstanding high-density construction and zoned pressure distribution to reduce pressure points in **low to moderate risk** patients. Ensuring contoured comfort, the Premium mattress is designed for quality functionality and value.



FEATURES

- Meets Latest FR standards
- Supportive reinforced perimeter foam
- **Tri-zoned interior; firm at the centre & softer head & foot zones**
- **Multi-layered design for superior pressure distribution**
- **Hi-Resiliency topper for superior comfort & reduced pressure points**
- Head to foot reversibility helps extend mattress life
- DELTAWAVE™ 4-way stretch, anti-sheer fabric
- Fluid Proof, Antimicrobial & Antifungal cover
- 360-degree zipper for easy inspection and service
- Custom sizes available
- Made to order

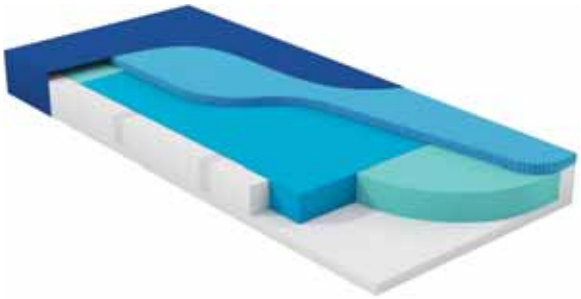
DELTAWAVE™ ELITE MATTRESS

The Elite DELTAWAVE™ Mattress delivers unparalleled anatomical support and pressure distribution for **moderate to high risk** patients. Gel-infused, vented, multi-layered design with Flexi-Rail sides, ensures optimal air flow and circulation.



FEATURES
- Meets Latest FR standards
- Supportive reinforced perimeter foam
- **Highest quality gel-infused memory foam construction**
- **Tri-zoned interior; firm at the centre & softer at the perimeter**
- **Flexi-Rail construction provides increased flexibility**
- Multi-layered design for superior pressure distribution
- Head to foot reversibility helps extend mattress life
- DELTAWAVE™ 4-way stretch, anti-sheer fabric
- Fluid Proof, Antimicrobial & Antifungal cover
- 360-degree zipper for easy inspection and service
- Custom sizes available
- Made to order

Code	Size	Description	Warranty	Each
480-099-602	36 x 80 x 7”	DELTAWAVE™ Elite Mattress	7 years for foam & cover	$622.95

DELTAWAVE™ BEHAVIOURAL HEALTH MATTRESS

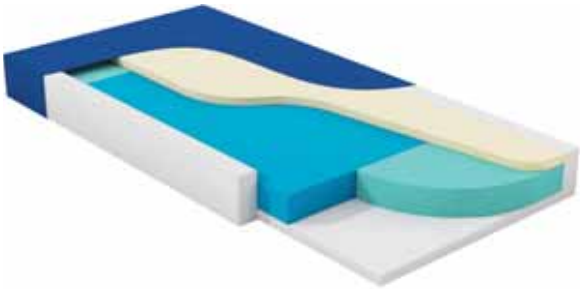
The DELTAWAVE™ Behavioural Health Mattress provides safety and reassurance for patients at risk of injury.

FEATURES
- Meets Latest FR standards
- Head to foot reversibility helps extend mattress life
- DELTAWAVE™ 4-way stretch, anti-sheer fabric
- Fluid Proof, Antimicrobial & Antifungal cover
- **High-density polyurethane foam construction**
- **Flame block institution, heavy use material**
- **Double-stitched, inverted seams to prevent access**
- Custom sizes available
- Made to order

Code	Size	Description	Warranty	Each
480-099-603	36 x 80 x 6”	DELTAWAVE™ Behavioural Health Mattress	1 year foam and cover	$424.95

DELTAWAVE™ BARIATRIC MATTRESS

The DELTAWAVE™ Bariatric offers outstanding high-density construction and zoned pressure distribution to reduce pressure ulcers in **low to moderate** patients. Ensuring contouring comfort the Bariatric mattress is designed for quality functionality and value.



FEATURES
- Meets Latest FR standards
- Supportive reinforced perimeter foam
- Tri-zoned interior; firm at the centre & softer head & foot zones
- Multi-layered design for superior pressure distribution
- **Hi-Resiliency foam throughout each layer for maximum support**
- **Additional 1" layer of foam for extra support**
- Head to foot reversibility helps extend mattress life
- DELTAWAVE™ 4-way stretch, anti-sheer fabric
- Fluid Proof, Fire Retardant, Antimicrobial & Antifungal
- 360-degree zipper for easy inspection and service
- Custom sizes available
- 500 lb weight limit
- Made to order

Code	Size	Description	Warranty	Each
480-099-604	42 x 80 x 7”	DELTAWAVE™ Bariatric Mattress	1 year for foam and cover	$716.95

DRIVE GRAVITY 7 LONG TERM CARE PRESSURE MATTRESS

- Three full layers of latex-free foam
- Full width top layer and true memory foam heel section for pressure distribution
- Bottom layer features scored articulation cuts extending the life of the mattress
- Stretch cover is fluid and tear resistant, low shear and easy to clean
- High Density Foam Perimeter
- Meets flammability standard CFR 1632 and CFR 1633

Code	Size	Description	Warranty	Each
480-103-001	36 x 80 x 6”	Drive Gravity 7 Long Term Care Pressure Mattress - 15770	7 years foam, 1 year cover	$339.95

DRIVE GRAVITY 8 DELUXE LONG TERM CARE PRESSURE MATTRESS

- Superior combination of multi-layered, latex free, die-cut and memory foam
- Top layer features die-cutting and memory foam heel for pressure redistribution
- Mattress includes a 6" to 5" heel slope and a channel cut center under the foot
- Bottom layer features scored articulation cuts extending the life of the mattress
- Stretch cover is fluid and tear resistant, low shear and easy to remove and clean
- High Density Foam Perimeter
- Meets flammability standard CFR 1632 and CFR 1633

Code	Size	Description	Warranty	Each

INVACARE® SOLACE PREVENTION FOAM MATTRESS

Featuring special zoned layers of high density foam for aid in pressure relief on areas susceptible to pressure ulcers and soft head and foot sections for ultimate comfort, this dual-layered mattress has the comfort and technology that users need.

- Nylon top cover and tri-laminate vinyl bottom for ease in cleaning and durability
- Two layer, high quality foam designed for preventing pressure ulcers
- Aids in providing uniform weight distribution for pressure ulcer prevention

Code	Size	Description	Warranty	Each
480-017-001	36 x 80 x 6”	Invacare® Solace Prevention Foam Mattress SPS1080	5 years foam, 1 year cover	$469.00

INVACARE® SOLACE PREVENTION MATTRESS

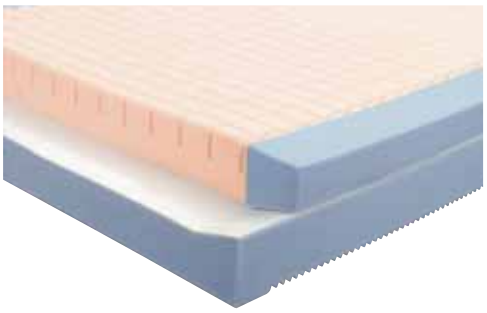
The soft heel section is upgraded to visco-elastic foam to cradle the sensitive area. This product provides comfort and support with built-in side supports and dual layer "fortress" cut foam.

- Built-in side supports
- 70 Denier nylon top cover
- 11 oz. tri-laminate vinyl bottom
- Soft head and heel section
- Fortess cut convoluted foam

Code	Size	Description	Warranty	Each
480-017-002	36 x 80 x 6”	Invacare® Solace Prevention Mattress SPS3080	5 years foam, 1 year cover	$869.00

INVACARE® GLISSANDO GLIDING MATTRESS

The Invacare Glissando Gliding Mattress features a premium four-way stretch cover and two layers of high-density foam with a patented "gliding" layer designed to help reduce friction and shear which can contribute to development of pressure ulcers.



- Built-in sidewall supports facilitate user ingress/egress
- Castellation-cut foam redistributes pressure for user comfort
- Fluid-resistant cover with concealed zipper helps prevent contamination of foam
- Foam sections move independently as mattress is articulated
- Patented gliding layer designed to help reduce shear and friction

Code	Size	Description	Warranty	Each
480-017-003	36 x 80 x 6”	Invacare® Glissando Gliding Mattress SRS2080	8 years foam, 4 year cover	$449.00

INVACARE® ZIPPERED MATTRESS COVERS

Individually wrapped covers offer comfort, durability and protection. Easily switch out the cover by simply unzipping it.

- Individually wrapped zippered mattress covers
- Simply unzip cover to replace
- 12 per case
- Fits mattresses 36 x 80 x 6"

Code	Size	Description	Warranty	Each
480-017-004	36 x 80 x 6”	Invacare® Zippered Mattress Covers MC0195-1	30 Day	$239.00

INVACARE® ELASTIC STYLE COVERS

Mattress covers will keep your Invacare mattress clean and fresh, and protect it from stains, odors, dust and incontinence. Covers are made of vinyl for easy use and care.

- Contoured mattress cover with elastic edges
- 12 per case
- Fits mattresses 36 x 80 x 6"

Code	Size	Description	Warranty	Each
480-017-005	36 x 80 x 6”	Invacare® Elastic Style Covers MC0065-1	30 Day	$149.00

MATTRESS AND STRETCHER CLEANING & DISINFECTION

These instructions provide recommended general cleaning methods for mattresses and stretcher pads. If you have specific product questions, please contact us at 1-888-623-5660 or at sales@castlecooper.ca.

RECOMMENDED CLEANING METHOD

- Hand-wash all surfaces of the mattress with warm water and mild detergent cleaner if visibly soiled
- Dry thoroughly
- Apply disinfectant solution either by spray, solution or pre-wetted wipes (do not soak mattress)
- Clean per hospital protocol for mattresses
- Wipe up excess disinfectant
- Rinse with clean water as needed
- Allow surface to dry before applying linens or turning mattress

IMPORTANT:

Dilute all disinfectants in accordance with manufacturers’ directions.

For Ready to Use products, spray or wipe onto surface to cover, and then allow to remain wet for the recommended time.

RINSE OFF DISINFECTANT CLEANERS

Disinfectants are NOT considered mild detergents. They can be more corrosive to surfaces and may cause damage to your mattress if used improperly. Mattresses and stretchers must be rinsed with clean water and dried thoroughly after using disinfectants such as quaternary, accelerated hydrogen peroxide, phenolic, or chlorine bleach. Failure to properly rinse and dry the mattress leaves a residue on the surface, which could cause premature corrosion or discoloration and is not covered under warranty.

INVACARE® HEAVY DUTY TRAPEZE FOR CS BEDS

Works with Invacare® CS Series beds.

STANCE | HEALTHCARE

STANCE HEALTHCARE™ TRANSCEND OVERBED TABLE

Combining functionality with sleek lines and rugged durability, this overbed table features a low-profile U-base, compatible with late-model beds, stretchers, mobile recliners and wheelchairs. Its pneumatic cylinder provides smooth, almost silent operation and permits infinite height adjustment within a height range of 29.5" to 44.5". A high-impact polystyrene shroud covers the base while concealing and protecting the twin-wheel rubber casters. This Transcend model also features a seamless thermoformed top with spill containment. *__Assembly required.__

SAVE A MOTOR, SAVE A BUCK!

Sometimes the culprit in a failed motor is no more than a broken gear. If we have the one you need, you'll be back up and running for just a few dollars! To speed up ordering, please use the drawings below to identify the one you need or have the following motor specifications on hand when calling:

HUBBELL MOTORS

Two numbers are required; a Model # and an "M" #
Example: MC421107HM1104

HILL-ROM / CARROLL MOTORS

One number is required; in some cases we may need the gear ratio.
Example: V07176AB76

Because of the extensive listing of gears some may not be in stock.

REBUILT BED MOTORS - FOR HILL-ROM® BEDS

Our very thorough remanufacturing process assures you of a motor you can rely on. First the drive assembly is dismantled, all bearings and gears are cleaned, inspected and replaced as needed; the drive assembly is repacked with grease and reassembled and the motor is tested under load and repainted.

In order to verify the correct Hill-Rom® motor number, please provide us with the "Manufacturer's Motor #" when ordering.
Example: Gearmaster K376YC223285.

HILL-ROM® REPLACEMENT CIRCUIT BOARDS

Working closely with a US bed-specific circuit board manufacturer, Castle & Cooper is able to provide delivery of remanufactured circuit boards for most popular beds on an exchange basis.

Each circuit board undergoes a specific remanufacturing process, beginning with a special wash process followed by a visual inspection for damaged components, ie: blown traces etc. All boards then undergo extensive testing by using bed-specific motor loads and simulated testing of all limit controls – contour, hi/low, knee, lockout and the trendelburg safety hook/latch system. Pressure transducers on our control boards are tested and calibrated.

REPLACEMENT TRIM PIECES FOR HILL-ROM®

Castle & Cooper has a wide selection of new and refurbished parts from after market suppliers. Prices in most cases will be substantially less than the original manufacturer's suggested retail. We also have parts to replace those phased into obsolescence by the original bed manufacturer, and finally, subcomponent parts which would be otherwise available only as part of larger assemblies.

RECONDITIONED HILL-ROM® SIDE RAILS

If the side rails of your beds are wobbly or worn looking; if the bed function or SideCom controls are constantly failing, then we suggest replacing the entire rails with reconditioned units.

These rails look and operate like new. Each has been sanded and repainted to an automotive grade finish; bushings – if equipped – are upgraded to metal sleeve type; bed function switches are replaced and all trim components – end and top canes and switch covers are replaced, and finally, every rail undergoes a function, electrical and mechanical test.

REPLACEMENT HAND (PENDANT) CONTROLS FOR BEDS

Castle & Cooper carries an extensive selection of replacement bed controls for most commonly used beds as well as controls for many older beds, some of which have gradually been phased out of service. These bed controls which are provided to us through alternate suppliers are fully warrantied, solidly constructed, easy to use and attractively designed.

When you want shelving that:

- Is modular, thus giving you virtually unlimited sizes and configurations
- Is very quick and easy to assemble
- Permits light, air circulation, and minimizes moisture

Single shelving units, such as the one shown to the left, are called Starter units. If you are building continuous shelving units, the first unit is a Starter unit and the rest are Add - On units.

CASTERS AND DOLLY BASES

STEM CASTERS MOUNTED DIRECTLY TO THE POST

Donut Bumper

Polyurethane Swivel

Polyurethane Rigid

Polyurethane Swivel/Locking

We offer two types of caster wheels: rubber gives a quieter ride, but requires more effort to push that the noisier polyurethane wheels. Each caster comes with a donut bumper.

Wheel Material	Style	Code	Each
Rubber	Swivel Only (set of 4)	CA5S4R	$94.26
Rubber	Swivel with brake (set of 4)	CA5BR4	122.95
Rubber	Swivel and swivel with brake (set of 2 each)	CA5SBR	114.95
Polyurethane	Swivel Only (set of 4)	CA5S4	65.95
Polyurethane	Swivel with brake (set of 4)	798817	150.95
Polyurethane	Swivel and swivel with brake (set of 2 each)	CA5SB	114.95
Polyurethane	*Rigid (set of 4)	798816	114.95

*Rigid casters require a Tie Bar

TIE BARS

Rigid Stem Casters require the use of a tie bar to assure alignment of rigid casters. The bar connects widthwise across the cart. One bar must be ordered for every two rigid casters.

Length (inches)	Code	Each
18	ATB21	$16.95
24	ATB24	19.95

While it's generally accepted that purchasing bulbs for medical application through a third party source offers substantial savings, there is also often the concern that such bulbs are inferior to those purchased from the original manufacturer of the equipment (certainly the manufacturers will tell you this).

MediLUME, a registered name used by a Canadian supplier of after market medical lamps, is used to package only their premium bulbs which have been thoroughly tested and are proven equal to those of the original manufacturer. For example, you won't find in our listing below, an equivalent lamp for that used in a commonly known surgical light (development and testing is still underway).

The selection of bulbs listed below are for equipment most commonly found within hospitals, namely surgical lamps and diagnostic instruments. More MediLUME surgical lamps are available for other applications, many of which have been widely used throughout North America and Europe for over thirty years.

If for any reason, any bulb is deemed unsatisfactory, you may return it for a full refund.

310-047-009	Hospital-Grade Surge Suppressor	$199.65

ELEC/SU-SU

MEDICAL-GRADE UPS SYSTEMS AND ISOLATION TRANSFORMERS (UL 2601-1 LISTED)

Designed for power protection within patient-care areas. All models feature built in Faraday-shielded isolation transformers which reduce the cumulative leakage currents of all connected equipment below 300 microamps. These UPS systems will switch between utility power and battery backup within 2-4 milliseconds; automatic voltage regulation (AVR) will keep equipment working through low voltage (brownouts) or high voltage conditions indefinitely without draining battery power.

All models have resetable circuit breakers, diagnostic LED's and are resistant to electrostatic discharge.

REAR PANEL

ELEC/UP-IS

ISOLATION TRANSFORMERS (UL 2601-1 LISTED)

Medical-grade isolation transformers are designed for equipment that does not require battery backup support but does need high isolation, low leakage current safety and surge suppression. All models feature built-in Faraday – shielded isolation transformers which reduce cumulative leakage currents of all connected equipment below 300 microamps.

REAR PANEL

Code	Output Capacity (Watts)	Unit Dimensions H x W x D	Each
310-047-004	1800	7.75 x 8.25 x 12.25"	$1,485.00
310-047-005	1000	7.25 x 7.25 x 10.5"	975.00
310-047-006	500	5.63 x 6.25 x 9.25"	645.00
